3

Mounting the Camera

● Ceiling Mount

1. Fix the camera to the bracket with the two supplied screws.

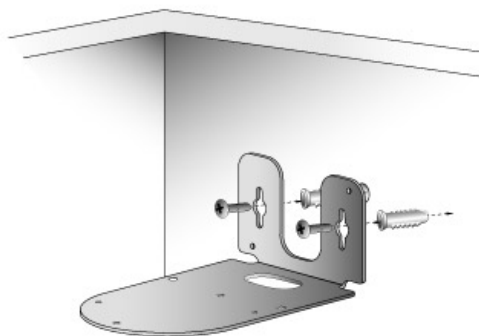

2. Fix the bracket and camera to the ceiling using the two screws and hollow wall anchors.

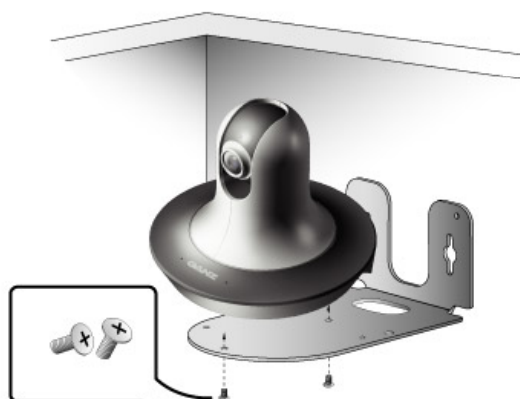

● Wall Mount

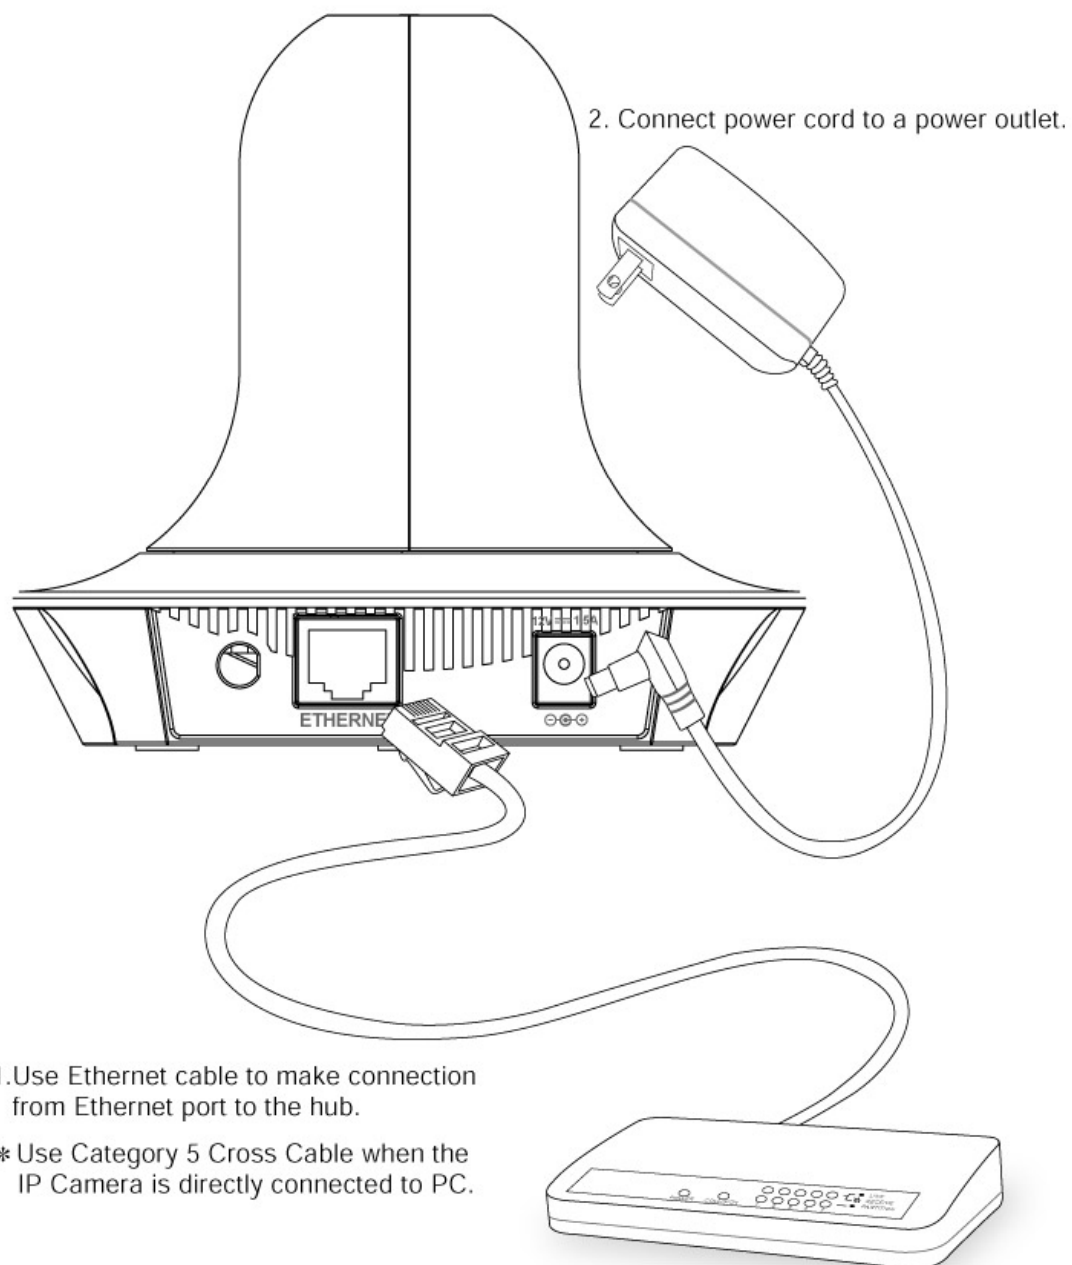

1. Fix the bracket to the wall using the two screws and hollow wall anchors.

2. Fix the camera to the bracket with the two supplied screws.

4 Install Your IP Camera in Ethernet Network

5 Assign IP Address

1. Run the "Installation Wizard" under the Software Utility directory from software CD.
2. The program will search the servers or cameras on the same LAN.

3. After searching, the main installer window will pop up. Click on serial number that matches the one you just noted from **2 Physical description**

4. Click "Link to selected device(s)" to connect the Internet Explorer to the IP Camera.

* If there is no DHCP server on the LAN, please refer to the user's manual for the methods of assigning an IP address.

6

The Internet Explorer Connects to the IP Camera

For setup further configuration, please check user's manual on the software CD.
